Erosion Sediment Control Class for DESIGNERS is a FREE INDOT-sponsored class.

- Recent audits on Erosion Sediment Control have noted apparent deficiencies in knowledge and training, both in Construction and Design.
- This class will strengthen your understanding on Erosion Sediment Control.
- Erosion details are now required for each phase of construction.
- Designers must become knowledgeable about Erosion Sediment Control.
- This is a **future Pre-Qualification requirement** for classifications 8.0 (Roadway Design) and 9.0 (Bridge Design)
