ASBESTOS ABATEMENT TRAINING CLASS HOURS: MONDAY-FRIDAY 7:30AM-4:00PM**

COMPREHENSIVE JOB SKILL TRAINING CLASSES – BEDFORD

Asbestos Abatement Training

(40 Hours) IDEM Accredited

1. Health effects-lecture
2. Respiratory protection-lecture & hands-on
3. Protective clothing-lecture & hands-on
4. Setting up decontamination unit
5. Waste disposal-lecture & hands-on
6. Methods of minimizing exposure-lecture
7. Medical surveillance-lecture
8. Technical aspects of air sampling-lecture
9. Supervisory requirements

Asphalt Placement (40 Hours)

1. Asphalt lute, rake & smoother
2. Vibratory roller & tamp
3. Power box pave
4. Quality assurance

Basic Construction Math (40 Hours)

1. Addition, subtraction, multiplication and division of whole numbers, mix numbers, decimals and fractions
2. Convert between decimals and common fractions
3. Use of the pocket calculator
4. Read a rule and measure
5. Learning Const. Math formulas

Introduction to Concrete (40 Hours)

1. Safety of Concrete & Properties
2. Sub grade for Concrete
3. Concrete Forming
4. Forming Curb & Gutter
5. Pouring Curb & Gutter
6. Concrete Pouring & Finishing
7. Specialized Hand Tools

Decorative Concrete (40 Hours)

1. Specialty Finishes
2. Exposing aggregate in concrete
3. Colored concrete finishing techniques
4. Stenciling
5. Stamping
6. Factors affecting stained concrete
7. Spray to finish
8. Decorative finishes – Hands on

Cutting/Burning/Welding (40 Hours)

1. Oxy-Acetylene cutting
2. Burning bar (lance)
3. Fire prevention & control
4. Petrogen
5. Setting up equipment
6. Welding machine & accessories
7. Fundamental welding positions flat String bead, butt weld, lap weld, tee Fillet & multiple pass fillet

Foreman Preparedness (40 Hours)

1. Communications
2. Construction Math
3. Project organization & documentation
4. Health & safety recognition
5. Dealing with people
6. Problem solving
7. Layout with instruments

General Construction (80 Hours)

1. Safety on Scaffold
2. Tools & material recognition
3. Power tools & Chain Saws
4. Compaction
5. Rigging & Signaling
6. Cutting & burning
7. Introductory Construction Math
8. Powder Actuated Tool
9. Introduction to Concrete

Hoisting & Rigging (40 Hours)

1. Hoisting & Rigging & Crane Safety
2. Basic Math for Hoisting & Rigging
3. Rigging Hardware & Slings
4. Signaling
5. OSHA Qualifications Requirement for Hoisting-Rigging & Signaling

Hazardous Waste Worker Training (40 Hours)

1. Hazard recognition
2. Health effects
3. Personal protective equipment
4. Decontamination
5. Site safety & health plans
6. Safe handling techniques
7. Safe sampling & air monitoring
8. Superfund community relations
9. Legal rights
10. Confined Space

Hydro-Mobile Scaffolding (40 Hours)

1. Forklift Operation Safety (Part One)
2. Scaffold Orientation Safety
3. Basic set up and operations of Hydraulic Scaffolding

Infection Control Risk Assessment (ICRA), GHS Hazard Com. (40 Hours)

1. Introduction to infection control & the hospital environment
2. Methods & processes to prevent the spread of infections during the renovation, demolition and construction of health care facilities
3. Ventilation & environmental controls

4 Construction of infection control barriers and enclosure areas

5. Contamination control
6. Dust and debris control
7. GHS Hazard Communication

Instrument Orientation (40 Hours)

1. Basic Math Conversions
2. Basic Survey Procedures
3. Laser Operator Training & Safety
4. Instruments

Mason Tending II (80 Hours)

1. Rough Terrain Forklift
2. Scaffold User Safety
3. Scaffold tools & PPE
4. Frame Scaffold
5. Tube & Clamp Scaffold
6. System Scaffold
7. Scaffold Builder
8. Mason Tenders duties
9. Safety & Health
10. Stocking masonry material
11. Estimating material
12. Mortar, admixtures & grout
13. Masonry saw
14. Reinforced masonry
15. Effects of weather on masonry
16. Cleaning masonry
17. Bracing masonry walls
18. Plaster tending & mixing

OSHA Construction Safety, First Aid & CPR, (40 Hours)

1. Dept. of Labor, OSHA-10 hr. Construction Safety Course
2. National Safety Council-First Aid & CPR
3. Silica Standards
4. Traffic Control (Certified Flagger)

OSHA Construction Safety (30 Hours)

1. Dept. of Labor, OSHA 30 hr. Construction Safety Course.

Introduction to Pipelaying (40 Hours)

1. Trench & Excavation
2. Confined Space Awareness
3. Back Injury Prevention
4. Hoisting/Rigging Basics
5. Ply Pipe Fusion
6. Basic Construction Math
7. Pressure Pipe Laying
8. Gravity Flow Systems

Pipelaying, Shoring & Laser (80 Hours)

1. Shoring (hydraulic, timber & screw jacks)
2. Pressure pipelaying techniques
3. Pipe fusion
4. Water pipe installation & assembly
5. Tapping & hydrostatic testing
6. Utility line & grade
7. Sanitary sewer & storm drain systems
8. Laser Operator Training & Safety

Print Reading-Building & Trades (40 Hours)

1. Heavy Commercial Construction

Print Reading-Highway & Bridge (40 Hours)

1. Highway & bridge plan reading as designed by the State Highway Commission

Scaffold Builder (40 Hours)

1. Scaffold User Safety
2. Scaffold Building Tools and Personal Protective Equipment (PPE)
3. Building Frame Scaffold
4. Tube and Clamp Scaffold
5. System Scaffold

Total Station Fundamentals (40 Hours)

1. Total Station Components
2. Proper care of Total Station
3. Setting up Total Station over a point
4. Total Station Operation
5. Measuring Horizontal Angles
6. Measuring horizontal distances
7. Right angle layout
8. Staking out a square
9. Building layout by coordinates
10. Staking out a building

Work Zone Sup. Training. (40 Hours)

(MUST HAVE AT LEAST 4000 HOURS OF DOCUMENTED ROAD WORK EXPERIENCE WITH AT LEAST 500 OF THOSE HOURS BEING IN TEMPORARY TRAFFIC CONTROL)

1. Certified Flagger
2. Traffic Control
3. Plan Reading
4. Typical Diagrams
5. Pedestrian & Understanding the driver
6. Legal Aspects
7. MUTCD

October 1, 2019

OCT - 7 2019

Dear Sir & Brother:

The Indiana Laborers' Training Trust Fund is pleased to announce the 2019-2020 Winter Upgrade and Apprenticeship Construction Craft Laborer Job Skill Training Program. Training at the Bedford, IN and Logansport, IN sites will start November 4, 2019 and will continue through April 27, 2020. Copies of each site's Training Schedules are attached with a brief course outline included on the back of the schedule describing the courses available.

Registration and enrollment for both Training Sites will begin on Tuesday, October 22, 2019 at 9:00a.m.

To apply for training the Business Manager, Contributing Contractor or Member should call the Institute in advance and select the course (s) in which he/she would like to enroll. Calls should be directed to Jeremy Brewer, J. D. McCoskey, Mike Tarbox or the undersigned; using the Indiana Laborers' Training Trust Fund's toll free number 1-800-742-4086.

The U. S. Department of Labor (OSHA) "Construction Safety and Health Training Course", 10 Hr. and 30 Hr. will again be offered throughout the schedule and is highly recommended for every member. We are also pleased to provide our "Work Zone Traffic Control Supervisor" course again this year. This course will be conducted at the Bedford Site on January 27-30, 2020, March 2-5, 2020 and March 30-April 2, 2020. At our Logansport, IN site this course will be held January 13-16, 2020 and February 24-27, 2020. In order to qualify for the Work Zone Safety Supervisor course, the member must have at least 4000 hrs. of documented road experience with 500 of those hours being in temporary traffic control. Other classes of interest are the Total Station Fundamentals, Scaffold Builder and ICRA (Infectious Control Risk Assessment). The Total Station Fundamentals course was first introduced November 28, 2016. This class will introduce the member to everything from the components to the total station, the operation and the staking out of a building. This class will be offered (3) three times at our training site in Bedford, IN. The Scaffold Builder course was first introduced November 17, 2014. We currently have 434 members trained. This course consists of class room and hands-on working with Frame Scaffold, Tube & Clamp Scaffold and Systems Scaffold. Upon successful completion of the course, the member will be able to legally build, work from and dismantle all three types of scaffold. We will be offering (3) three classes at the Bedford, IN Training Site and (2) two at our Northern Training Site in Logansport, IN this winter upgrade. The ICRA (Infectious Control Risk Assessment) class was introduced November 18, 2013. We currently have 928 members trained. This class is an excellent course to take for any Construction Craft Laborer who is or potentially could be working at any health care facility or school.

Training benefits provided will be as established by the Board of Trustees and shall include all meals, lodging, a training expense allowance of \$25.00 for each full day of attendance, forty cents (40¢) per mile for one round trip each week of attendance. Also, at our Tow Path Ranch site, off site live-in facilities and meals have been secured for members that live beyond commuter distance. In addition, eligible members may continue their unemployment compensation while in training. We recommend you make arrangements prior to your arrival to avoid any problems with your unemployment benefits.

Training will be from 7:30am to 6:00pm, Monday through Thursday (with the exception of the Asbestos Abatement Training course which is scheduled Monday-Friday 7:30am – 4:00pm EST) at both training sites. At the Institute near Bedford, Indiana members may arrive on Sunday evening between the hours of 4:00pm and 10:00pm prior to the start of their respective course on Monday morning. The best route to the Institute is take State Road #37 to the Oolitic, Indiana junction (Oolitic is located three miles North of Bedford) and turn West off State Road #37 at the signal and proceed West one mile to the Institute which is on the right.

At our Tow Path Ranch Training Site near Logansport, Indiana, members must arrive on Monday morning prior to the start of their respective course(s). The best route to Tow Path Ranch is take State Road #24 to approximately 3 miles West of Logansport and turn South at our sign (Tow Path Ranch Training Site) and progress on the river road four (4) miles to our property. The Training fund property is well marked and just West of Georgetown, IN.

Should additional information or assistance be needed, please contact our office at your convenience and I would be pleased to assist. Training schedules may also be found on our web site at www.indianalaborerstraining.org.

With kind personal regards,

Fraternally,

Sean Coakley
Director
